Years experience	Projects completed	Happy clients	Live websites

TECHNICAL SKILLS

React.js 90%
Building modern, responsive web applications

Redux 85%
State management for complex applications

Tailwind CSS 90%
Utility-first CSS framework

JavaScript 85%
Modern JavaScript (ES6+)

HTML5 & CSS3 95%
Semantic HTML and modern CSS

Git & GitHub 80%
Version control and collaboration

Next.js 70%
React framework for production

API Integration 85%
RESTful API integration

TypeScript 65%
Type-safe JavaScript

Firebase 75%
Backend-as-a-Service

Experience & Education

Employment history, responsibilities, education, and coursework.

PROFESSIONAL EXPERIENCE

Front-End Developer
Sep 2025 - Present

QMH Technologies | Rawalpindi, Pakistan

- Develop responsive and modern websites using React.js, JavaScript, Tailwind CSS, HTML, and CSS.
- Build reusable and scalable UI components for enterprise-level applications.
- Integrate RESTful APIs and handle dynamic data rendering efficiently.
- Implement secure authentication systems and protected routes for user management.
- Optimize website performance and enhance overall user experience.
- Debug, fix issues, and maintain existing codebases for long-term stability.
- Collaborate with cross-functional teams to deliver high-quality solutions.
- Write clean, maintainable code following industry best practices.

Technologies: React.js, Redux, Tailwind CSS, JavaScript, API Integration

Front-End Developer Intern
Sep 2023 - Dec 2023

Selected Projects

Project descriptions, technologies, key features, and live websites.

britanniaairportcars.co.uk

Britannia Airport Cars

A comprehensive London airport taxi booking platform with responsive user interface and booking-focused design architecture.

Key features: Responsive design, Booking system, Payment integration, Admin dashboard, Real-time availability, Email notifications

React.js | Tailwind CSS | JavaScript | API Integration

2024 | 3 months

khanshopease.netlify.app

KhanShop Ease

Full-featured e-commerce platform with admin dashboard, cart, wishlist, and product management system.

Key features: User authentication, Product management, Shopping cart, Wishlist, Order tracking, Admin dashboard, Payment integration, Search and filter

React.js | Redux | Tailwind CSS | Firebase

2024 | 4 months

hostingbyubaid.netlify.app

Hosting by Ubaid

A personal practice hosting website project developed for learning modern design patterns and improving front-end skills.

Key features: Responsive design, Hosting plans, Pricing tables, Contact form, Domain search, Live chat

React.js | Tailwind CSS | JavaScript

2024 | 2 months

gatwicklondonairporttaxi.co.uk

Gatwick London Airport Taxi

A professional airport transfer website developed for business clients with modern layout and fully responsive design approach.

Key features: Taxi booking, Airport transfers, Vehicle selection, Contact form, Quote calculator, Driver tracking

React.js | Tailwind CSS | JavaScript

2024 | 2 months

qhmhtechnolgies.netlify.app

QMH Technologies

A practice company website created with modern user interface design and fully responsive cross-device compatibility.

Key features: Company profile, Services showcase, Team section, Contact form, Client testimonials, Portfolio gallery

React.js | Tailwind CSS | JavaScript

2024 | 1.5 months

Services

Services, scope, typical delivery times, and pricing approach.

React Development

Building modern, responsive web applications using React.js and Redux with best practices and optimal performance. Features: Component-based architecture, State management with Redux, React Hooks, Performance optimization. Pricing: Custom | Delivery: 2-4 weeks

Front-End Development

Creating clean, semantic, and accessible HTML/CSS code with modern styling and responsive design. Features: Semantic HTML5, Modern CSS3, Cross-browser compatibility, Accessibility (WCAG). Pricing: Custom | Delivery: 1-3 weeks

Responsive Design

Ensuring websites look great on all devices and screen sizes with mobile-first design approach. Features: Mobile-first design, Fluid layouts, Responsive images, Touch interactions. Pricing: Custom | Delivery: 1-2 weeks

UI/UX Design

Designing intuitive and beautiful user interfaces with focus on user experience and usability. Features: User research, Wireframing, Prototyping, User testing. Pricing: Custom | Delivery: 2-3 weeks

API Integration

Connecting frontend applications with RESTful APIs and handling data efficiently. Features: REST API integration, Data fetching, Error handling, Caching strategies. Pricing: Custom | Delivery: 1-2 weeks

Authentication & Security

Implementing secure authentication and authorization systems for web applications. Features: JWT authentication, Protected routes, Role-based access, Security best practices. Pricing: Custom | Delivery: 1-2 weeks

Performance Optimization

Optimizing website performance for faster loading times and better user experience. Features: Lazy loading, Code splitting, Image optimization, Performance auditing. Pricing: Custom | Delivery: 1-2 weeks

Firebase Integration

Integrating Firebase services for authentication, database, and hosting. Features: Firebase Auth, Firestore database, Storage, Hosting. Pricing: Custom | Delivery: 1-2 weeks

Achievements & Interests

Portfolio-listed milestones and personal hobbies.

ACHIEVEMENTS

Best Intern Performance

Recognized for outstanding performance during internship at University Internship Program.

Bachelor's Degree in Software Engineering

Completed BS Software Engineering from Hazara University, Mansehra.

Front-End Developer Certification

Completed professional certification in Front-End Development.

5+ Successful Projects

Successfully delivered more than 5 projects for clients with high satisfaction.

Experience Letter

Expected experience letter from QMH Technologies for outstanding contribution.

4 Live Websites Launched

Successfully launched and maintained 4 live websites for clients.

INTERESTS & HOBBIES

Playing Cricket

Enjoys playing cricket with friends on weekends.

PC Gaming

Passionate about gaming and exploring new game worlds.

Coding Projects

Love building side projects and learning new technologies.

Reading Books

Enjoy reading tech blogs, articles, and self-improvement books.

Listening to Music

Love listening to music while coding and relaxing.

Photography

Enjoy capturing moments and beautiful scenery.

Testimonials

All client testimonials currently displayed in the portfolio.

John Doe

CEO, Tech Company | 2024-03-15 | Rating: 5/5

"Ubaid is an exceptional developer who delivered our project on time and exceeded our expectations. His attention to detail and problem-solving skills are remarkable. I would highly recommend him for any front-end development project."

Jane Smith

Project Manager, Digital Agency | 2024-02-20 | Rating: 5/5

"Working with Ubaid was a pleasure. He understood our requirements perfectly and implemented a beautiful, responsive website that our clients love. His communication skills are excellent and he delivers on time."

Mike Johnson

Founder, Startup | 2024-01-10 | Rating: 5/5

"Ubaid helped us build our e-commerce platform from scratch. His expertise in React and Redux made the process smooth and efficient. He provided valuable insights and suggestions that improved our product significantly."

Sarah Ahmed

CTO, Tech Solutions | 2023-12-05 | Rating: 4/5

"Ubaid is a talented developer with a great eye for design. He created a modern, responsive website that perfectly represents our brand. His code is clean, well-organized, and easy to maintain."

Ali Khan

Product Manager, E-Commerce | 2023-11-15 | Rating: 5/5

"I was impressed by Ubaid's ability to understand complex requirements and translate them into a functional, user-friendly interface. His work on our admin dashboard was outstanding."

Frequently Asked Questions

Answers to common questions about services and projects.

What services do you offer?

I offer front-end development services including React.js development, responsive web design, UI/UX implementation, API integration, and website optimization. I can build anything from simple landing pages to complex web applications.

What is your availability for projects?

I am currently available for full-time, freelance, and remote opportunities. I can start immediately on most projects. For larger projects, I can adjust my schedule to meet your timeline requirements.

What is your development process?

My process typically includes: 1) Requirement gathering and planning, 2) UI/UX design and prototyping, 3) Development and implementation, 4) Testing and quality assurance, 5) Deployment and launch, 6) Maintenance and support.

What technologies do you specialize in?

I specialize in React.js, Redux, Tailwind CSS, JavaScript, HTML5, CSS3, Next.js, API integration, Firebase, Git, and responsive web design. I also have experience with TypeScript and various front-end tools.

How much do you charge for projects?

Pricing depends on the project scope, complexity, and timeline. I offer competitive rates and can provide a detailed quote after discussing your specific requirements. Contact me for a free consultation and estimate.

Do you provide maintenance and support?

Yes, I offer ongoing maintenance and support services for websites and applications. This includes bug fixes, updates, performance optimization, and feature enhancements. Custom maintenance packages are available based on your needs.

How do I get started with a project?

Simply fill out the contact form with your project details, or reach out via email or phone. We'll schedule a consultation to discuss your requirements, timeline, and budget. From there, I'll prepare a proposal and we can get started.
